Policy¹ Commercial Members: Managed Care (HMO and POS), PPO, and Indemnity

Routine foot care may be considered <u>MEDICALLY NECESSARY</u> when the patient has a systemic disease, such as metabolic, neurologic, or peripheral vascular disease, of sufficient severity that performance of such services by a nonprofessional person would put the patient at risk (for example, a systemic condition that has resulted in severe circulatory embarrassment or areas of desensitization in the patient's legs or feet).

Services ordinarily considered routine may be considered <u>MEDICALLY NECESSARY</u> if they are performed as a necessary and integral part of otherwise covered services, such as:

- Diagnosis and treatment of diabetic ulcers
- Wounds, and
- Infections.

Treatment of mycotic nails may be considered <u>MEDICALLY NECESSARY</u> under the exceptions to the routine foot care exclusion. The class findings, outlined below, or the presence of qualifying systemic illnesses causing a peripheral neuropathy, must be present.

Debridement of a mycotic nail may be considered <u>MEDICALLY NECESSARY</u> (whether by manual method or by electrical grinder) when definitive antifungal treatment options have been reviewed and discussed with the patient at the initial visit and the physician attending the mycotic condition documents that the following criteria are met:

In the absence of a systemic condition, the following criteria must be met:

- In the case of ambulatory patients there exists:
 - o Clinical evidence of mycosis of the toenail, and

- Marked limitation of ambulation, pain, or secondary infection resulting from the thickening and dystrophy of the infected toenail plate.
- In the case of non-ambulatory patients there exists:
 - Clinical evidence of mycosis of the toenail, and
 - The patient suffers from pain or secondary infection resulting from the thickening and dystrophy of the infected toenail plate.

In addition, procedures for treating toenails may be considered <u>MEDICALLY NECESSARY</u> for the following:

- Onychogryphosis (defined as long-standing thickening, in which typically a curved hooked nail [ram's horn nail] occurs), and there is marked limitation of ambulation, pain, and/or secondary infection where the nail plate is causing symptomatic indentation of or minor laceration of the affected distal toe; and/or
- Onychauxis (defined as a thickening [hypertrophy] of the base of the nail/nail bed) and there is marked limitation of ambulation, pain, and/or secondary infection that causes symptoms.

The following physical and clinical findings, which are indicative of severe peripheral involvement, must be documented and maintained in the patient record, in order for routine foot care services to be reimbursable.

Class A findings

Non-traumatic amputation of foot or integral skeletal portion thereof.

Class B findings

- Absent posterior tibial pulse
- Advanced trophic changes as (three required):
 - hair growth (decrease or absence)
 - nail changes (thickening)
 - pigmentary changes (discoloration)
 - skin texture (thin, shiny)
 - o skin color (rubor or redness); and
 - Absent dorsalis pedis pulse.

Class C findings

- Claudication
- Temperature changes (e.g., cold feet)
- Edema
- Paresthesias (abnormal spontaneous sensations in the feet); and
- Burning.

Note: Benefits for routine foot care are also available for patients with peripheral neuropathy involving the feet, but without the vascular impairment outlined in Class B findings. The neuropathy should be of such severity that care by a non-professional person would put the patient at risk. If the patient has evidence of neuropathy but no vascular impairment, the use of class findings modifiers is not necessary.

BCBSMA generally does not cover routine foot care. However, this policy outlines the specific conditions for which coverage may be considered <u>MEDICALLY NECESSARY</u>.

The following services are considered to be components of routine foot care, regardless of the provider rendering the service, may be considered **NOT MEDICALLY NECESSARY**:

- The cutting or removal of corns and calluses;
- Clipping, trimming, or debridement of nails, including debridement of mycotic nails;
- Shaving, paring, cutting or removal of keratoma, tyloma, and heloma;
- Non-definitive simple, palliative treatments like shaving or paring of plantar warts which do not require thermal or chemical cautery and curettage;

• Other hygienic and preventive maintenance care, such as cleaning and soaking the feet, the use of skin creams to maintain skin tone of either ambulatory or bedfast patients, and any other service performed in the absence of localized illness, injury, or symptoms involving the foot.

Prior Authorization Information

Inpatient

 For services described in this policy, precertification/preauthorization <u>IS REQUIRED</u> for all products if the procedure is performed <u>inpatient</u>.

Outpatient

 For services described in this policy, see below for products where prior authorization <u>might be</u> <u>required</u> if the procedure is performed <u>outpatient</u>.

| | Outpatient |
|---------------------------------------|--|
| Commercial Managed Care (HMO and POS) | Prior authorization is not required . |
| Commercial PPO and Indemnity | Prior authorization is not required . |

Description

Routine foot care services include the examination, diagnosis, and medical treatment of conditions and dysfunctions of the foot.

Services normally considered routine foot care include: cutting or removal of corns and calluses; trimming, cutting, and clipping; other hygienic and preventive maintenance care considered self-care (i.e., cleaning and soaking the feet, and the use of skin creams to maintain skin tone of both ambulatory and bedridden patients); and any services performed in the absence of localized illness, injury or symptoms involving the foot.

Nail debridement is the removal of all diseased nail to the nail bed or viable nail plate or to the point where bleeding is imminent. Simple trimming of the nail ends of the toenails by cutting or grinding is not considered debridement.

Summary

The research for this policy was compiled using a combination of medical society recommendations, Medicare recommendations, and expert opinion.

CPT Codes / HCPCS Codes / ICD Codes

Inclusion or exclusion of a code does not constitute or imply member coverage or provider reimbursement. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage as it applies to an individual member.

Providers should report all services using the most up-to-date industry-standard procedure, revenue, and diagnosis codes, including modifiers where applicable.

CPT Codes

| CPT codes: | Code Description |
|------------|---|
| 11055 | Paring or cutting of benign hyperkeratotic lesion (eg, corn or callus); single lesion |
| 11056 | Paring or cutting of benign hyperkeratotic lesion (eg, corn or callus); 2 to 4 lesions |
| 11057 | Paring or cutting of benign hyperkeratotic lesion (eg, corn or callus); more than 4 lesions |
| 11719 | Trimming of nondystrophic nails, any number |
| 11720 | Debridement of nail(s) by any method(s); 1 to 5 |
| 11721 | Debridement of nail(s) by any method(s); 6 or more |

HCPCS Codes

| HCPCS | |
|--------|--|
| codes: | Code Description |
| G0127 | Trimming of dystrophic nails, any number |
| G0247 | Routine foot care by a physician of a diabetic patient with diabetic sensory neuropathy resulting in a loss of protective sensation (LOPS) to include the local care of superficial wounds (i.e., superficial to muscle and fascia) and at least the following, if present: (1) local care of superficial wounds, (2) debridement of corns and calluses, and (3) trimming and debridement of nails |

| S94.22xA | Injury of deep peroneal nerve at ankle and foot level, left leg, initial encounter |
| S94.22xD | Injury of deep peroneal nerve at ankle and foot level, left leg, subsequent encounter |
| S94.22xS | Injury of deep peroneal nerve at ankle and foot level, left leg, sequela |
| 004.00.4 | Injury of cutaneous sensory nerve at ankle and foot level, unspecified leg, initial |
| S94.30xA | encounter |
| S04 20VD | Injury of cutaneous sensory nerve at ankle and foot level, unspecified leg, subsequent |
| S94.30xD | encounter |
| S94.30xS | Injury of cutaneous sensory nerve at ankle and foot level, unspecified leg, sequela |
| S94.31xA | Injury of cutaneous sensory nerve at ankle and foot level, right leg, initial encounter |
| S94.31xD | Injury of cutaneous sensory nerve at ankle and foot level, right leg, subsequent |
| | encounter |
| S94.31xS | Injury of cutaneous sensory nerve at ankle and foot level, right leg, sequela |
| S94.32xA | Injury of cutaneous sensory nerve at ankle and foot level, left leg, initial encounter |
| S94.32xD | Injury of cutaneous sensory nerve at ankle and foot level, left leg, subsequent encounter |
| S94.32xS | Injury of cutaneous sensory nerve at ankle and foot level, left leg, sequela |
| S94.8x1A | Injury of other nerves at ankle and foot level, right leg, initial encounter |
| S94.8x1D | Injury of other nerves at ankle and foot level, right leg, subsequent encounter |
| S94.8x1S | Injury of other nerves at ankle and foot level, right leg, sequela |
| S94.8x2A | Injury of other nerves at ankle and foot level, left leg, initial encounter |
| S94.8x2D | Injury of other nerves at ankle and foot level, left leg, subsequent encounter |
| S94.8x2S | Injury of other nerves at ankle and foot level, left leg, sequela |
| S94.8x9A | Injury of other nerves at ankle and foot level, unspecified leg, initial encounter |
| S94.8x9D | Injury of other nerves at ankle and foot level, unspecified leg, subsequent encounter |
| S94.8x9S | Injury of other nerves at ankle and foot level, unspecified leg, sequela |
| S94.90xA | Injury of unspecified nerve at ankle and foot level, unspecified leg, initial encounter |
| 004.00 5 | Injury of unspecified nerve at ankle and foot level, unspecified leg, subsequent |
| S94.90xD | encounter |
| S94.90xS | Injury of unspecified nerve at ankle and foot level, unspecified leg, sequela |
| S94.91xA | Injury of unspecified nerve at ankle and foot level, right leg, initial encounter |
| S94.91xD | Injury of unspecified nerve at ankle and foot level, right leg, subsequent encounter |
| S94.91xS | Injury of unspecified nerve at ankle and foot level, right leg, sequela |
| S94.92xA | Injury of unspecified nerve at ankle and foot level, left leg, initial encounter |
| S94.92xD | Injury of unspecified nerve at ankle and foot level, left leg, subsequent encounter |
| S94.92xS | Injury of unspecified nerve at ankle and foot level, left leg, sequela |
| S99.819A | Other specified injuries of unspecified ankle, initial encounter |
| S99.819D | Other specified injuries of unspecified ankle, subsequent encounter |
| S99.819S | Other specified injuries of unspecified ankle, sequela |
| S99.919A | Unspecified injury of unspecified ankle, initial encounter |
| S99.919D | Unspecified injury of unspecified ankle, subsequent encounter |

| S99.919S | Unspecified injury of unspecified ankle, sequela |
