WHEN TO USE THIS FORM

Complete and submit this form when requesting authorization for assisted reproductive technology services or preimplantation genetic testing. For commercial members, refer to medical policies <u>086</u> and <u>088</u> for coverage criteria. For Federal Employee Program members, refer to member plan brochures at <u>fepblue.org</u>.

BLUE CROSS BLUE SHIELD OF MASSACHUSETTS PROVIDERS MUST USE AUTHORIZATION MANAGER ETOOL

To request initial authorization for these services, Blue Cross Blue Shield of Massachusetts providers should use <u>Authorization Manager</u>, an electronic technology used to review authorization requirements, request authorizations, upload clinical documentation to an existing case, check existing case status, and view/print the decision letter. For commercial members, the requests must meet medical policy guidelines.

To ensure the request is processed accurately and quickly:

- Enter the facility's NPI or provider ID for where services are being performed.
- Enter the appropriate surgeon's NPI or provider ID as the servicing provider, not the billing group.
